Professional experience

March 2022 - December 2023

FULL-STACK WEB DEVELOPER

Pozsonyi Pagony Ltd.

- I participated in the development of a headless e-commerce platform similar to Shopify. I used **React** for the admin interface and **PHP** for the backend.
- Throughout my tenure, I primarily focused on implementing new features such as a highly customizable form creator and a fully-fledged, in-house task management system. Additionally, I **integrated third-party services** into our core product.
- I also contributed to maintenance and refactoring efforts, including improving the performance of our event booking system.

December 2020 - June 2021

LABORATORY WORK

ELTE Catalysis and Organic Synthesis Research Group

- I conducted organic synthesis followed by analysis of the resultant molecules using **NMR** and **GC-MS** techniques.
- Upon reviewing the findings, I refined the synthesis route and conditions to optimize the process.

Educational attainment

2021 - 2022 - 2 completed semesters

COMPUTER ENGINEERING BSC
correspondent

Széchenyi István University

2017 - 2021

CHEMISTRY BSC
full-time

Eötvös Lóránd University

2016 - 2017

CHEMICAL TECHNICIAN

Petrik Lajos Bilingual Vocational School of Chemistry, Environmental Protection and Information Technology
